BULK APPLICATION:

Apply one (1) ounce by weight (two measuring cups - cup included) per 50 lbs. seed, by manually or mechanically dispersing Graph-Ex SA for Peanuts into a flowing stream of seed. Ensure that Graph-Ex SA for Peanuts is evenly dispersed in the planter or drill box.

PLANTER BOX APPLICATION:

Apply one (1) ounce by weight (two measuring cups - cup included) per 50 lbs. seed into planter or drill box. Mix seed until uniform coverage is obtained. It is best to treat and mix seed in 50 lb. increments.

For optimal performance, plant seed within 72 hours of application. DO NOT EXCEED 72 HOURS without re-inoculating seed.
