SabrEx for Wheat and Cereals PB is intended to utilize *Trichoderma*'s ability to improve nutrient availability to plants.

SabrEx for Wheat and Cereals PB can be used for all Wheat, Sorghum, Oats, Spelt, Barley, Rye, and Triticale at the recommended usage rate.

CONTENTS SETTLE. SHAKE CONTAINER WELL BEFORE MEASURING.

CONTAINS NON-PLANT FOOD INGREDIENTS

GUARANTEED ANALYSIS

Active Ingredient: 1.0% *Trichoderma harzianum* 7x10⁷ cfu/g

Inert Ingredients: 60.0% Talc, 24.0% Rice Hulls, 15.0% Graphite

APPLICATION RATE: 1 oz. (by weight) per 100 lbs wheat seed. 1 measuring scoop, provided, treats approximately 120 lbs. wheat seed.

DIRECTIONS FOR USE: Apply as a dry seed treatment prior to planting.

DRILL BOX APPLICATION: Measure appropriate amount of SabrEx and sprinkle onto seed in the planter or drill box. For best results, fill planter box with seed, then add SabrEx and mix until uniform seed coverage is obtained.

BULK APPLICATION: Apply by manually or mechanically dispersing SabrEx into a flowing stream of seed. Ensure that SabrEx is evenly dispersed in the planter or drill box.

COMPATIBILITY: SabrEx for Wheat and Cereals PB is compatible with many common wheat seed fungicides and insecticides. For current compatibilities, contact your ABM representative or call 877-617-2461.

CAUTION: SabrEx may be used either on untreated seed, or seed that has been treated with a fungicide or insecticide. Wear appropriate protective gear, avoid skin contact or breathing of dust, and follow the caution statements of the other treatments if the seed has been pretreated. Individuals allergic to molds and or fungi should take precautions to avoid contact with the eyes or skin. To minimize risk of allergic exposure, individuals should wear standard protective clothing and equipment including gloves, safety glasses, and an NIOSH approved respirator. In case of allergic contact with eyes or skin, immediately flush the exposed area with water. Seek medical attention if irritation develops or persists.

Limited Warranty: Advanced Biological Marketing guarantees the cultures in this package will inoculate the quantity and kind of seed specified on this package when: (1) Product is used prior to expiration date; (2) Product is stored properly; (3) Product is used under favorable soil and weather conditions; (4) Product is used in accordance with directions for use noted on this package.
