EnVigor™

Seed Coating Polymer

NEUTRAL

An Organic-based, multi-functional Seed Coating Polymer

EnVigor™, the next generation seed coating polymer, is both biodegradable and multi-functional. This environmental friendly product has proven to be an effective dust-off control coating, as well as an efficient extender for seed inoculating biologicals. It's effective in protecting Rhizobia against harmful chemicals from 6 soybean seed treatment packages available on the market today.

Manufactured in the U. S. A. For
Advanced Biological Marketing
P. O. Box 222
Van Wert, OH 45891

KEEP FROM FREEZING
KEEP OUT OF REACH OF CHILDREN

NET CONTENTS: 2.5 GALLONS

DIRECTIONS FOR USE:

1. Shake well before use
2. Add seed treatment chemicals first, then EnVigor, and finally seed inoculating biologicals to give the biologicals the best protection.

SUGGESTED APPLICATION RATES:

Corn: 1.0 - 2.0 fl. oz. per 100 LBS of seeds
Dry Beans: 0.5 - 1.0 fl. oz. per 100 LBS of seeds
Soybean: 0.75 - 1.0 fl. oz. per 100 LBS of seeds

Please check with the manufacture for the application rates on other crops.

The above application rates only serve as guidelines or starting points. For actual application rates, the users are encouraged to change according to seed size, seed moisture content, fungicides/insecticides, inoculants, and seed treating equipment. All above factors affect the amount of total slurry that is required to give your seeds the best coverage and therefore the application rate of EnVigor polymer.

CAUTION:

1. Contacting with eyes may cause irritation. Flush with water immediately for at least 15 min. Get medical attention if irritation persists.
2. Avoid prolonged skin contact.

STORAGE AND HANDLING:

1. Keep from freezing.
2. Avoid contaminating the product. For unused material, keep the lid of the container tight after each use to avoid spoiling of the product due to its organic nature.

PLEASE READ CAREFULLY**CONDITIONS OF SALE AND
LIMITED WARRANTY STATEMENT**
