

Graph-Ex[®]

**Inoculant Seed Lubricant
for Soybeans**

Soybean Inoculant *plus* Seed Lubricant

Net Contents: 25 oz. (709 grams)
Treats 50 x 140k units of soybean seed.
Shake well before measurement and use.

soybeans

Graph-Ex may be applied to seed using two methods of application, bulk or planter box.

BULK APPLICATION: Apply one half (0.5) ounce by weight per 140k. The measuring cup provided treats approximately 140k of seed. Ensure that Graph-Ex is evenly dispersed in the planter or drill box.

PLANTER BOX APPLICATION: Apply one half (0.5) ounce by weight per 140k unit of seed into planter or drill box. Mix seed until uniform coverage is obtained. It is best to treat and mix seed in 140k increments.

For optimal performance, plant seed within 72 hours of application. DO NOT EXCEED 72 HOURS without re-inoculating seed.

For current "planting window" recommendations, and the latest seed treatment compatibility information, please contact your ABM representative at 877-617-2461.

ADVERSE CONDITIONS/VIRGIN SOYBEAN LANDS: When any of these conditions are present, ABM highly recommends at least a double (2x) rate of inoculants. ABI Sterile Peat is highly recommended to be used as a second inoculant to achieve at least a double rate; • Soil has not hosted the specific legume for more than three (3) years • Soil pH is less than 5.8 (the pH should be adjusted by liming prior to inoculation) • Soil pH is more than 8.5 • Organic matter is less than 1.5 • Drought or flooding has occurred • Topsoil exceeds 80° F • Soil erosion • Use of soil treatments and chemicals injurious to soil bacteria and inoculants.

STORAGE INSTRUCTIONS: Store package in a cool place, and keep closed until use. Use inoculant before expiration date and only use on specified legume seed. Protect inoculant and inoculated seed from direct sun, and high temperatures. Store below 77° F

CAUTION!

Avoid exposure to dust. Wear a mask to prevent inhalation. Wear gloves and appropriate clothing (long pants and long sleeved shirt) to avoid contact with skin.

Shake well before measurement and use.

CONTAINS NON-PLANT FOOD INGREDIENTS

GUARANTEED ANALYSIS: Active Ingredients: 1.00% Bradyrhizobium japonicom 5x10⁹ cfu/gm
Inert Ingredients: 60% Talc , 24% Cellulose, 15% Graphite

LIMITED WARRANTY:

Advanced Biological Marketing guarantees the culture in this package of Graph-Ex will inoculate the quantity and kind of seed specified on this package when:

- (1) Product is used prior to expiration date;
- (2) Product is stored properly;
- (3) Product is used under favorable soil and weather conditions;
- (4) Product is used in accordance with directions for use noted on this package.

All field performance complaints must be brought to the attention of Advanced Biological Marketing within seventy (70) days of planting. ADVANCED BIOLOGICAL MARKETING MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS, WARRANTY OF MERCHANTABILITY, OR WARRANTY FOR A PARTICULAR PURPOSE, OR ANY OTHER EXPRESS OR IMPLIED WARRANTY. ADVANCED BIOLOGICAL MARKETING'S LIABILITY IS HEREBY EXPRESSLY LIMITED TO THE PURCHASE PRICE OF PRODUCT ONLY. IN NO EVENT SHALL ADVANCED BIOLOGICAL MARKETING OR ANY SELLER OF THIS PRODUCT BE LIABLE FOR CONSEQUENTIAL, SPECIAL, OR INDIRECT DAMAGE RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT.

Graph-Ex for soybeans is used for nitrogen-fixing capability of Rhizobia.

Graph-Ex and America's Best Inoculant are Registered Trademarks of Advanced Biological Marketing.
